KEY PROJECTS

Islam 360 | React.js, Vite, Tailwind CSS, Node.js, Axios, Custom Hooks, Context API

- Developed and deployed a full-featured Islamic utility app covering prayer times, offline Qibla direction, duas/azkar, Tasbih counter, 99 Names of Allah, and custom user settings.
- Integrated an AI chatbot trained on Islamic content for contextual Q&A; deployed to Vercel for fast global access.

Train Reservation System | HTML, Bootstrap, Tailwind CSS, JavaScript, DB Integration

- Built a responsive booking platform with real-time train data, secure ticket booking/cancellation, and user account management.
- Added payment integration and automated travel reminders; optimized for mobile devices.

ChainWallet DApp | HTML, CSS, Tailwind, JavaScript, ethers.js, jsPDF, QRCode.js, OTPAuth, Web3

- Created a decentralized crypto wallet with MetaMask integration, ETH/contract transfers, and categorized transaction history.
- Implemented 2FA security, contact book, and PDF/QR export; supported multi-network compatibility.

Drive Sense AI | HTML, Tailwind CSS, Bootstrap, Python, Flask, TensorFlow, OpenCV

- Created an AI-powered driving analysis tool achieving 92% hazard detection accuracy using trained ML models and computer vision.
- Delivered adjustable sensitivity alerts and PDF/video-based reports using Flask backend with trained ML models.

Spotify Clone | React.js, Node.js, Tailwind CSS, REST APIs

- Engineered a fully responsive Spotify-inspired music streaming interface with playlist management, search functionality, and real-time audio playback features.

Weather Dashboard | React.js, OpenWeather API, Tailwind CSS

- Built a real-time weather dashboard with location-based forecasts, dynamic UI theming, and 5-day weather projections using live API data.
